

## Broadleaf milkweed (priority in NM, OK)

Number of plants and the mean number of open flower observations made each week (in weeks 10-40) for all plants in the Continental US and for plants in the Southcentral region.

**Note: Data are very limited for broadleaf milkweed. Mean number of observations per week (combining data across years) < 8.**

Year	Continental US		Southcentral region	
	No. plants	Mean no. obs/wk	No. plants	Mean no. obs/wk
2018	2	2.0	2	2.0
2019	3	2.3	3	2.3
2020	3	2.0	3	2.0
2021	2	1.8	2	1.8
2022	6	1.6	3	1.0
2023	3	1.7	2	1.5
All years	7	6.8	4	6.2

Locations of monitored plants inside (red) and outside (green) the Southcentral region (shaded gray)
