

Red maple (priority in LA)

Number of plants and the mean number of open flower observations made each week (in weeks 10-40) for all plants in the Continental US and for plants in the Southcentral region.

Year	Continental US		Southcentral region	
	No. plants	Mean no. obs/wk	No. plants	Mean no. obs/wk
2013	419	90.9	0	0.0
2014	592	144.5	1	0.0
2015	530	155.5	0	0.0
2016	708	248.4	1	0.0
2017	789	297.6	25	3.2
2018	749	270.5	25	8.4
2019	805	316.7	35	16.7
2020	816	208.9	26	10.0
2021	764	288.3	25	4.7
2022	643	182.8	23	5.8
2023	553	183.0	23	6.8
All years	3,027	2,387.0	56	55.7

Locations of monitored plants inside (red) and outside (green) the Southcentral region (shaded gray)
