

## Trumpet honeysuckle (priority in LA)

Number of plants and the mean number of open flower observations made each week (in weeks 10-40) for all plants in the Continental US and for plants in the Southcentral region.

**Note: Data are very limited for trumpet honeysuckle. Mean number of observations per week (combining data across years) < 8.**

Year	Continental US		Southcentral region	
	No. plants	Mean no. obs/wk	No. plants	Mean no. obs/wk
2013	5	2.8	4	2.8
2014	4	1.6	0	0.0
2015	4	1.9	1	0.6
2016	7	1.8	1	0.8
2017	7	2.4	2	1.0
2018	4	1.6	1	0.8
2019	4	1.6	2	0.8
2020	3	1.2	2	1.1
2021	5	1.9	1	0.4
2022	2	1.0	0	0.0
2023	11	2.7	2	0.9
All years	31	14.6	9	6.1
